## Your New Neighborhood Animal Hospital

At Clifton Hollow Animal Hospital, our focus is the human - animal bond. Our priority is to improve the lives of pets and their families. Preventative care is always at the center of our philosophy. We strive to create a strong relationship with our clients, helping them to become active partners in their pets' health and well-being. Our promise to you: We will provide the highest quality veterinary medical knowledge to care for your furry family members. We welcome you to visit our hospital's warm and friendly atmosphere. See you soon!

**Get your pet's first  
physical exam FREE!**

Present this card to receive your discount! One per family. Excludes emergency visits, medications, vaccines, lab work, surgeries and dental work.

## Meet the Owners!

### Dr. Joshua Kinder

I became a Veterinarian because I have always wanted to help those who do not have the voice to help themselves. I served in the United States Navy for 4 years and acquired my Doctorate of Veterinary Medicine degree from Washington State University in 2011. I believe the best way to keep our pets healthy is preventing disease before it begins. Although I enjoy every aspect of Veterinary Medicine, dental disease and dermatology are two areas that I am especially interested in.

### Dr. Sherri Kinder

I became a Veterinarian to make a difference in both pets' and their family's lives. I received my Doctorate of Veterinary Medicine degree from Washington State University in 2008. My special interests are preventative medicine, pain management, and client education. I strongly believe in the importance of the human-animal bond. I understand that our pets are members of the family, and I incorporate this in the way I practice medicine on a daily basis.

While we love being Veterinarians, spending time with family is the most important part of our lives. We have two sons, Joshua Jr. and Elijah. Whether it is camping, hiking, or skiing the Kinder family loves spending time outdoors.
